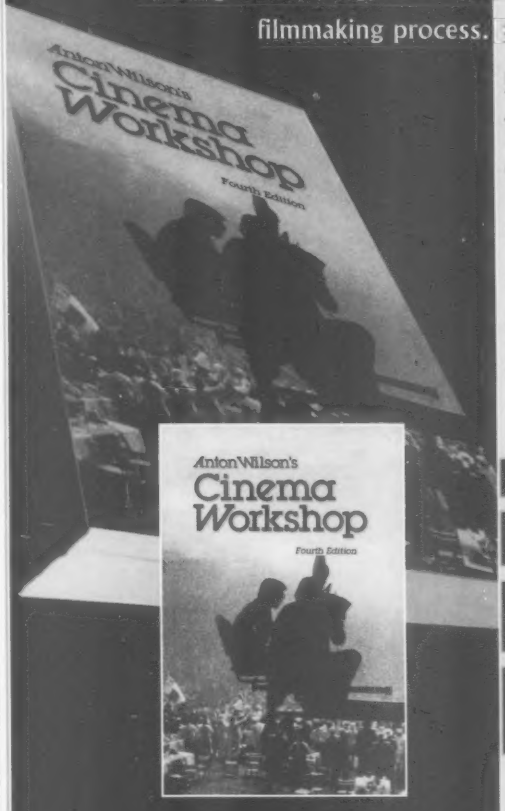
An indispensable guide to the basics of cinematography, Anton Wilson's Cinema Workshop covers complex topics in clear, concise language, offering useful insights on the filmmaking process.



Included are chapters on film, cameras, formats, lenses, filters, light, sound, batteries and underwater photography. The Fourth Edition of Wilson's text also offers a completely revised and updated section on the ever-changing world of video technology.

LONDON INTERNATIONAL FILM SCHOOL

Hollywood, Athens, Tokyo, Lagos, Rio, Tel-Aviv, Reykjavik, Sydney, Toronto, Geneva, Hong Kong, London – just some of the centres worldwide where our graduates are making films.

Students from over thirty different countries come to the heart of London's West End to take our two year Diploma Course. Experienced professionals teach all aspects of film making – covering studio feature and location documentary productions in 16mm and 35mm.

Teaching of scriptwriting, direction, camerawork, sound recording, editing etc. ensures a high degree of professionalism. And it must do – Governments, T.V. Networks and Educational Foundations have been sending personnel to us for training for over thirty years.

This intensive Course, demanding hard work and commitment, produces over forty films each term – many students working on more than one production.

There are fresh intakes in January, April and September.
